BIOGAS GENERATOR SET · DAF POWER ENGINE

DAF-BG-DA-325

DAF POWER biogas generator set rated 260 kW / 325 kVA, powered by the DAF POWER DBG15-G280 gas engine. Converts biogas from farms, landfills and wastewater plants into reliable power.

RATED OUTPUT	RATED POWER	RATING	FREQUENCY
325 kVA	260 kW	PRP	50 Hz

TECHNICAL SPECIFICATIONS

Model No.	DAF-BG-DA-325
Fuel type	Biogas
Frequency	50 Hz
Rated power	260 kW / 325 kVA
Rating	PRP per ISO 8528-1
Engine brand	DAF POWER
Engine model	DBG15-G280
Cylinders	6L

PRP = Prime Rated Power, COP = Continuous Operating Power, per ISO 8528-1. Engine model may vary between 50 Hz and 60 Hz configurations as shown. Final technical data are subject to the model technical drawing — please request the current version before ordering.

KEY FEATURES

- Turns biogas from farms, landfills and wastewater into power
- Power range 50–350 kVA for on-site generation
- PRP ratings per ISO 8528-1
- 50 / 60 Hz configurations available
- Supports sustainability and carbon-reduction goals
- Easy maintenance access and lifting points

TYPICAL APPLICATIONS

- Livestock farms and wastewater plants
- Landfill gas power generation
- Food, beverage and ethanol plants
- Cogeneration (CHP) projects
- Sustainability upgrade retrofits

WHY DAF POWER

- Generator set manufacturer since 2009
- ISO 9001 certified production
- 100% load-tested before shipment
- OEM / ODM configuration available
- Export support to 100+ countries
