FG SERIES · SILENT DIESEL GENERATOR

DAF-FG-75-60

DAF POWER FG Series silent diesel generator set, prime rated 55 kW / 68 kVA, powered by Cummins 4BTA3.9-G2 engine. Engineered for standby and prime power in construction, mining, commercial and rental applications.

PRP OUTPUT	ESP OUTPUT	VOLTAGE	WEIGHT
55 kW	60 kW	220~127 V	1013 kg

TECHNICAL SPECIFICATIONS

Model No.	DAF-FG-75-60
Phase	3-Phase
Prime power (PRP)	55 kW / 68 kVA
Standby power (ESP)	60 kW / 75 kVA
Rated voltage	220~127 V
Engine brand	Cummins
Engine model	4BTA3.9-G2
Governor	Electrical
Alternator brand	DAF POWER
Alternator model	DSR224E
Control module	DEEPSEA DSE6122
Bore × Stroke	102×120 mm
Displacement	3.9 L
Compression ratio	17.3:1
Engine power	60 kW
Fuel consumption	15.9 L/h
Fuel tank	75 L
Weight	1013 kg
Dimensions (L×W×H)	2500×1000×1250 mm

PRP = Prime Rated Power, ESP = Emergency Standby Power, per ISO 8528-1 (power factor 1.0). Dimensions, weight and fuel tank capacity are typical values for the standard configuration — final figures are available in the model technical drawing; please request the current version before ordering.

KEY FEATURES

- Silent canopy design for low-noise operation
- Reliable diesel engine with mechanical or ECU governor
- Brushless alternator with AVR voltage regulation
- Digital control module with full protection
- Base fuel tank for extended running time
- Easy maintenance access and lifting points

TYPICAL APPLICATIONS

- Construction and commercial backup power
- Mining, quarrying and remote sites
- Telecom, data center and rental fleets
- Agriculture and residential standby
- Events and emergency response

WHY DAF POWER

- Generator set manufacturer since 2009
- ISO 9001 certified production
- 100% load-tested before shipment
- OEM / ODM configuration available
- Export support to 100+ countries
