LPG GENERATOR SET · DAF POWER ENGINE

DAF-LPG-DA-25

DAF POWER LPG generator set rated 20 kW / 25 kVA, powered by the DAF POWER DLP2.8G-LPG25 engine. Clean-burning LPG for sites without pipeline gas and cost-sensitive fuel logistics.

RATED OUTPUT	RATED POWER	RATING	FREQUENCY
25 kVA	**20** kW	**PRP**	**50 / 60** Hz

TECHNICAL SPECIFICATIONS

Model No.	DAF-LPG-DA-25
Fuel type	LPG (Liquefied Petroleum Gas)
Frequency	50 / 60 Hz
Rated power	20 kW / 25 kVA
Rating	PRP per ISO 8528-1
Engine brand	DAF POWER
Engine model	DLP2.8G-LPG25
Cylinders	4L

PRP = Prime Rated Power, COP = Continuous Operating Power, per ISO 8528-1. Engine model may vary between 50 Hz and 60 Hz configurations as shown. Final technical data are subject to the model technical drawing — please request the current version before ordering.

KEY FEATURES

- Runs on LPG — clean burning, easy storage and transport
- Power range 25–375 kVA for versatile deployment
- PRP ratings per ISO 8528-1
- 50 / 60 Hz configurations available
- Compact footprint with easy maintenance access
- OEM / ODM configuration available

TYPICAL APPLICATIONS

- Sites without pipeline gas supply
- Construction and commercial backup
- Agriculture and rural power
- Islands and remote microgrids
- Retail, hotels and telecom sites

WHY DAF POWER

- Generator set manufacturer since 2009
- ISO 9001 certified production
- 100% load-tested before shipment
- OEM / ODM configuration available
- Export support to 100+ countries
