NATURAL GAS GENERATOR SET · WEICHAI POWERED

DAF-NG-WC-313

DAF POWER natural gas generator set rated 250 kW / 313 kVA, powered by the Weichai WP13D317E300NG (50 Hz) / WP13D317E301NG (60 Hz) gas engine. Clean-burning natural gas for distributed energy, cogeneration and continuous industrial power.

RATED OUTPUT	RATED POWER	RATING	FREQUENCY
313 kVA	**250** kW	**PRP**	**50 / 60** Hz

TECHNICAL SPECIFICATIONS

Model No.	DAF-NG-WC-313
Fuel type	Natural Gas
Frequency	50 / 60 Hz
Rated power	250 kW / 313 kVA
Rating	PRP per ISO 8528-1
Engine brand	Weichai
Engine model	WP13D317E300NG (50 Hz) / WP13D317E301NG (60 Hz)
Cylinders	6L

PRP = Prime Rated Power, COP = Continuous Operating Power, per ISO 8528-1. Engine model may vary between 50 Hz and 60 Hz configurations as shown. Final technical data are subject to the model technical drawing — please request the current version before ordering.

KEY FEATURES

- Lean-burn gas engine for low emissions and fuel economy
- Power range 38–2300 kVA covering prime and continuous duty
- PRP / COP ratings per ISO 8528-1
- 50 / 60 Hz configurations available
- OEM / ODM configuration available
- Global service and spare parts support

TYPICAL APPLICATIONS

- Distributed energy and CHP plants
- Data centers and industrial parks
- Oilfield associated gas utilization
- Commercial and municipal power
- Grid-support and peaking stations

WHY DAF POWER

- **Generator set manufacturer since 2009**
- **ISO 9001 certified production**
- **100% load-tested before shipment**
- **OEM / ODM configuration available**
- **Export support to 100+ countries**
