S SERIES · SILENT DIESEL GENERATOR

DAF-S-14-50X

DAF POWER S Series silent diesel generator set, prime rated 12.8 kW / 12.8 kVA, powered by DAF POWER DSR-4B12 engine. Engineered for standby and prime power in construction, mining, commercial and rental applications.

PRP OUTPUT	ESP OUTPUT	VOLTAGE	WEIGHT
12.8 kW	14 kW	230 V	560 kg

TECHNICAL SPECIFICATIONS

Model No.	DAF-S-14-50X
Phase	1-Phase
Prime power (PRP)	12.8 kW / 12.8 kVA
Standby power (ESP)	14 kW / 14 kVA
Rated voltage	230 V
Engine brand	DAF POWER
Engine model	DSR-4B12
Governor	Mechanical
Alternator brand	DAF POWER
Alternator model	DSR-13-1
Control module	DATAKOM D100
Bore × Stroke	85×95 mm
Displacement	2.156 L
Compression ratio	18:1
Engine power	17 kW
Fuel consumption	4.0 L/h
Fuel tank	42 L
Weight	560 kg
Dimensions (L×W×H)	1550×740×850 mm

PRP = Prime Rated Power, ESP = Emergency Standby Power, per ISO 8528-1 (power factor 1.0). Dimensions, weight and fuel tank capacity are typical values for the standard configuration — final figures are available in the model technical drawing; please request the current version before ordering.

KEY FEATURES

- Silent canopy design for low-noise operation
- Reliable diesel engine with mechanical or ECU governor
- Brushless alternator with AVR voltage regulation
- Digital control module with full protection
- Base fuel tank for extended running time
- Easy maintenance access and lifting points

TYPICAL APPLICATIONS

- Construction and commercial backup power
- Mining, quarrying and remote sites
- Telecom, data center and rental fleets
- Agriculture and residential standby
- Events and emergency response

WHY DAF POWER

- Generator set manufacturer since 2009
- ISO 9001 certified production
- 100% load-tested before shipment
- OEM / ODM configuration available
- Export support to 100+ countries
